

TRUSTED FENCING CONTRACTORS IN DERBY & NOTTINGHAM

Welcome to MD Fencing Ltd...

We are trusted fencing contractors in Derby & Nottingham with over 15 years of experience in the fencing trade.

From our Derbyshire base we offer comprehensive fencing services to all areas within 20 miles including Nottingham, Ashbourne, Burton on Trent, Swadlincote & Belper. As fully verified Checkatrade members we are reputable fencing specialists and come highly recommended by our customers in the local community.

MD Fencing contractors supply and install a huge range of fencing and gates using high-quality timber & metal products. We offer competitive pricing options for both domestic garden fencing and commercial metal fencing.

“ I chose MD Fencing as they were local and had excellent reviews, I wasn't disappointed Michael was a pleasure to deal with and his work installing a new garden fence was first class. Wouldn't hesitate to use again. ”

Why choose MD Fencing..

We are professional fencing contractors in Derby with an enviable reputation for installing garden fencing and commercial fencing throughout the local area. We offer all aspects of fencing services from minor fence repairs to full fence installation.

Our comprehensive range of fencing services in Nottingham and Derby include everything from panel and picket fencing to commercial security fencing. Our fencing contractors are also available for emergency fence repairs, should yours get damaged.

We boast a highly experienced team that can take care of all your fencing requirements, from groundwork preparation and installing gravel boards, to siting your new fence and fence repairs.

“ *Top job from start to finish. Quoted competitively, communicated well, job completed to a high standard and they tidied up afterwards. Would highly recommend to anyone wanting new fence panels.* ”

These are our most popular fencing services..

We install all types of metal and wooden fencing. Our most sought-after garden fencing includes:

Lap Panel Fencing

Lap panel fencing is one of the most affordable fencing solutions for your garden, the interlocking horizontal timber panels slot into place adding privacy. The best thing about the pressure treated panel fencing is that it suits any garden or courtyard. For panel fencing in Derby or Nottingham speak to our team today.

Picket Fencing

Installing picket fencing in your garden is a lovely way to protect your borders from pets or section off areas such as ponds. Picket fencing is available in a variety of heights, with many of our customers favouring low-level painted or treated panels. We can quote for your picket fencing in Derby or within a 20-mile radius.

Close Board Fencing

Are you considering close board fencing in Derby or Nottingham? Highly recommended by our customers, close board fencing provides great privacy screening with overlapping timber. Known for their thickness and robustness, the close board fence panels are available in different heights up to 6ft high.

Bespoke Timber Fencing

Bespoke timber fencing can be a unique way to transform your outdoor space with an array of different styles and shapes available. Our bespoke timber fencing is made to measure, and you can choose from natural fencing and composite fencing to decorative panels and fitted trellis.

“ *Excellent service and job. Very polite and friendly guys, arrived on time. Very hard working, never stopped all day and whole job completed in 2 days, old fencing removed and new with concrete posts and gravel boards. Would highly recommend.* ”

Fence Repair

From a minor fence repair to a full new replacement garden fence, our dedicated team of fencing contractors in Derby undertake all types of fence repairs. Common problems we help our clients with include replacing rotten timber posts, installing fence supports & spurs and carrying out repairs to rotten panels.

Minor Fence Repair Service

Do you need a new Garden fence panel or fence post repair? Has your garden fence blown down in high winds? We can offer you a prompt and reliable fence repair in Ashbourne, Derby, Burton on Trent, Belper, Swadlincote, and Nottingham areas. With the expertise of our fence repair team, we will try and match high-quality materials with your existing fence as closely as possible.

Fence Replacement Service

If your commercial or garden fencing is beyond economical repair, we offer full installation services for your new fence. If required we can remove your old fence, install new posts and fit replacement metal or timber fencing.

“ *Excellent service and job. Very polite and friendly guys, arrived on time. Very hard working, never stopped all day and whole job completed in 2 days, old fencing removed and new with concrete posts and gravel boards. Would highly recommend.* ”

“ Absolutely thrilled with our new fencing. The workers arrived when they said they would. They worked quickly and efficiently. The job was completed neatly and the site was left tidy and clean. ”

How we Install a Fence Post...

- All posts are set in the ground at least 2ft deep.
- All posts are set in concrete.
- We always run a CATA SCAN over every fence line to check for cables.
- We always check for drainage.

How we install fence panels with Wooden Posts...

- Secure your panels to wooden fence posts.
- We use 2-3 inch galvanized wood screws.
- Drill pilot holes first of all to ensure that the screws go in cleanly without damaging the wood.

How we install fence panels in Concrete Posts...

- Once your gravel board has been fitted in we use a level to ensure that it, or your ground, is perfectly horizontal.
- We then slide the panel into the groove that is located in the edges of your concrete post.

How we fit Wooden Gravel Boards...

- We Insert the board between your two wooden posts
- We then attach these boards to the fence posts using galvanized screws or nails, inserted at an angle into the posts, or by using a steel gravelboard clip.

“*Michael was quick to respond and did a great job replacing my garden fence, including disposing of the old one, despite the garden being very awkward to access. He was also very helpful in ensuring the fence met all of my requirements.*”
